

**HEAT & GLO™**  
No one builds a better fire

Balanced Flue Gas Fires

550TRSI pebbles with 4-sided stainless steel trim and full stainless steel front.

550TRSI with 3-sided black trim

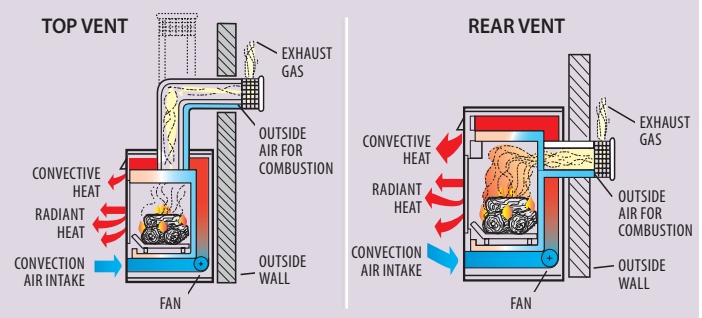

6000TRSI with Luna Polished concrete surround.

A Heat & Glo is an impressive feature, offering installation ease and versatility.

### Anywhere... any style

Heat & Glo balanced flue fires are so easy to install, with straight out the back venting options, they're ideal for multi-storey dwellings on an outside wall. Heat & Glo units can also be vented in a number of versatile vertical and horizontal flueing options. In fact you can vent Heat & Glo units up to 4.9m\* horizontally with up to three 90 degree bends. Your fireplace can be virtually anywhere and any style.

\*Refer to manual for details.

6000TRSI with 4-sided stainless steel trim.

550TRSI with 4-sided black trim.

350TRSI with 4-sided stainless steel trim.

Heat & Glo balanced flue fires –  
the healthiest way to heat  
your home.

### Balanced flue technology

A completely sealed system, Heat & Glo balanced flue gas fireplaces draw 100% of combustion air from the outdoors and exhaust all combustion by products back outside, with no affect on indoor air quality. In addition, cold air drafts are eliminated and heat output is maximised. No power or fan is needed to achieve this.

### IntelliFire<sup>Plus</sup> Ignition System

The Intellifire Plus remote will automatically lower flame heights and cycle the fire on and off in a thermostat mode, thereby reducing fuel consumption and running costs. Never again will you manually light a pilot or bend down to start your fireplace.

IntelliFire Plus features battery back-up, ensuring your fire will operate during a power outage.

XLR Plus with Porcelain base and Fog Grey Tonic mesh front.

XLR Plus with Pebbles and Graphite Tonic mesh front.

XLR Plus logs with Lava Red Martini front.

## XLR Plus – a modern marvel.

The XLR Plus is a modern marvel. Downtown, uptown and everywhere in between, when looks matter it's your style.

Mix and match with modern decor. A fireplace so cool, it's hot and highly efficient at setting the mood.

Define your fire with your choice of Martini double-glass front or the Tonic sheer mesh front available in a range of colours and stainless steel.

Logs, pebbles or reflective porcelain allow you to create the combination of art and fire to accent your décor.

The XLR is a direct vent Balanced flue gas fire with vertical and horizontal venting options.\*

\*See manual for details.

STHVBI with 3-sided stainless steel trim.

STHVBI with 4-sided stainless steel trim.

STHVBI –  
Beauty you can see through.

Create a divide between two rooms or simply an impressive room divider the Heat & Glo STHVBI with its stunning logset and high variable flame pattern is truly 'Beauty you can see through'.

STHVBI with 4-sided stainless steel trim.

STHVBI with marble trim.

Cosmo I30 pebbles with Halo front.

Supreme I30 with standard black DF front.

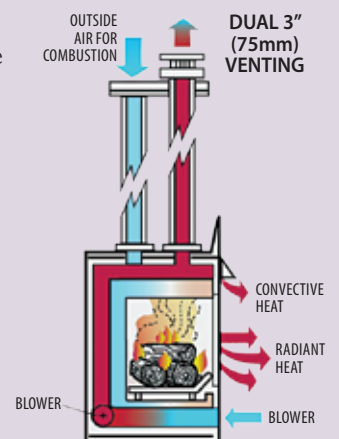

Supreme I30 with 3-sided stainless steel trim

Convert your existing fireplace with the I30 series and enjoy clean exceptional heat.

The I30 Series is the ultimate insert for your existing fireplace, featuring all the benefits of Balanced flue technology and efficient space heating with a stunning logset (Supreme I30) or pebbles or glass media (Cosmo I30).

The I30 is simple to install. Featuring dual flexi flues – one flue draws air from outside for combustion and the other flue expels the fumes. The I30 is completely airtight so absolutely no fumes will spill back into your room. Brilliant for your indoor air quality.

Choose from a range of décor finishing options including the Martini double-glass door, the Halo front (Cosmo only), 3-sided and 4-sided stainless steel or black trims or a range of mantelpiece and fascia options. The I30 Series can be built in as a new fireplace application.

A RANGE OF FLAT TRIM OPTIONS ARE ALSO AVAILABLE FOR THE DF STANDARD FRONT
