

BALANCED FLUE

GAS FIREPLACES, STOVES AND INSERTS

HEAT  GLO

HEAT & GLO®

No one builds a better fire

Heat & Glo is fueled by innovation and driven to prove "No One Builds A Better Fire." The brand was founded in 1975 in a small Minnesota garage by brothers Ron and Dan Shimek. In 1987, Heat & Glo introduced Balanced Flue technology—forever changing the way fireplaces function.

Much has changed since the beginning. Yet much remains the same. One part innovation. One part application. With an eye toward design and innovative technologies, Heat & Glo continues on an endless pursuit; pushing the boundaries of where fire can go and how it can look.

HEAT & GLO TECHNOLOGY

BALANCED FLUE GAS TECHNOLOGY

Balanced Flue gas fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces, stoves and inserts provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

ADVANCED IGNITION

Advanced intermittent pilot systems (IPI) within Heat & Glo fireplace products deliver energy conservation and fuel cost savings—even without power. IPI systems include built-in safety features, memory settings and can even function during power outages. Easily manage it all with optional wireless controls.

ZERO CLEARANCE INSTALLATION

Skillfully designed for maximum impact and increased efficiency, the Australian Collection includes multiple zero clearance models. Engineered to be installed without style constraints. Seamless. Flush. And clean in your space.

CONVENIENT CONTROL OPTIONS

Take command of your comfort. A variety of control options suit different tastes. Choose from a wall switch, wireless remote control or programmable wall thermostat to find the ideal balance of convenience and utility.

MODERN DESIGN REDEFINED

MEZZO 1300 SEE-THROUGH shown with clean face trim in brushed nickel, iced fog glass and natural logs.

MEZZO 1000 shown with clean face trim in new bronze, iced fog glass and ceramic stones.

MEZZO

You've never experienced modern design like this. Clean. Discreet. Luxurious. In 3 sizes, with a see-through model also available. Define your design with a variety of finishing options. We spared nothing, to give you everything. It's modern design, redefined.

Details matter. Every corner, every edge and every element of the MEZZO is all about perfection. Flames, lights, reflections and warmth combine to elevate the senses. A black glass interior adds depth and intensity to the fire. So captivating, we dare you to take your eyes off of it.

FUNDAMENTALLY MODERN

XLR PLUS shown with tonic front in black, ceramic stones and reflective black glass liner.

XLR PLUS shown with tonic front in ebony and natural logs.

XLR PLUS

Warmth, ambiance and chic contemporary detail. An experience only the XLR Plus can provide. A linear design and long ribbon flame form a broad, hypnotic firescape. Two sizes and several finishing options create a fundamentally modern look for any space.

Reap the benefits of form and function. Clean lines and elegant ambiance never go out of style.

REFLECTIVE BLACK GLASS LINER OPTION

Create a mood so cool, it's hot. A reflective glass liner radiates the fire and intensifies the flame.

6000 shown standard.

6000

The original achievement, made better over time. That's the history behind this flagship model from Heat & Glo. It started in the late 1980s as the DV88, gained popularity as the DV36 and then evolved into the award-winning 6000 it is today. Once you witness the vivid flames and efficient heat, you'll see why.

CAST SURROUNDS

Complete your 6000 with distinctive style. A modern cast surround can transform your space.

SEE-THROUGH shown standard.

SEE-THROUGH

Connect two spaces with authentic warmth and ambiance. Multiple finishing combinations and flexible venting options offer an array of See-Through installations. Enjoy the power of fire in dramatic new ways.

350 shown standard with custom surround.

350

Compact, creative versatility. Fitting where other fireplaces don't. A small footprint with flexible venting options offers an array of unique installation possibilities. Enjoy strong heat output, bold flames, a textured brick interior and detailed log set—all in more places than you'd think.

Above: 550 shown with echo cast surround.

550

Slim. Versatile. And the next step up from the 350. A slender profile with flexible venting options offers an array of unique installation possibilities. For strong heat output, enhanced flames with an upgraded ceramic burner, a brick interior and detailed log set—all in more places than you'd think.

CAST SURROUNDS

Complete your 550 with distinctive style. A modern cast surround can transform your space.

SUPREME INSERT

No more drafty, dated fireplaces. No more messy maintenance. No more soot and smoke. It's time for an immediate upgrade, with interest.

The Supreme delivers. Traditional ambiance. Full log sets. Efficient warmth. A simple and classic upgrade to your existing wood fireplace.

REFRACTORY UPGRADE

Enhance the firebox with textured brick detail and a seasoned look.

Dimensions above are in millimeters. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.
